Let's Start!

Going green ... where to start?

Learning Outcome

Analyze issues relating to different topics and their solution in written and spoken situations according to work and social contexts.

Can Do Statements

- I can talk about solving problems.
- I can describe environmental problems.
- I can express necessity, duty, and advice.

Ask your partner:

- Can you think of any major environmental problems in your city? What about in your country?
- What can you do to help this problem or problems?

Let's Explore!

Adam is looking for some **environmentally friendly*** features on the printer. Does he find any?

* To be "environmentally friendly" means to not be harmful to the environment.

Instructions: Read the text aloud.

- Adam:** Hi, Claire. It's a good thing you're here in the copy room. If you wouldn't mind answering some of my questions.
- Claire:** Hi, Adam. Sure. What would you like to know?
- Adam:** I've wondered if the printers are switched off at the end of the workday.
- Claire:** Not every day, just on Friday.
- Adam:** Hmm ... We need to switch printers off at the end of the workday if possible. Personal printers in offices must be turned off when not in use for extended periods as well. Even in standby mode they are consuming energy and costing us money!
- Claire:** You'll have to talk to Ms. Moore about this. I don't make these decisions.
- Adam:** Hmm ... there are quite a few environmentally friendly features like the ability to print double-sided. That is a must! I'll be mentioning that in my report. Now, let's look at the photocopier over here.
- Claire:** Adam, you mustn't be touching that.
- Adam:** I'm going to jot this down. I'll be looking into the installation of software that automatically turns the machine off at a certain time and then automatically turns it on at a preset time in the morning. We needn't have it powered up all night. Sorry, sorry!
- Claire:** It's fine. If you would let me know what you're looking for, I would be more than happy to help you.
- Adam:** I would appreciate it if you would tell me whether the standby is set properly on this machine.
- Claire:** I think it's automatic ...
- Adam:** It's not manual? Has this photocopier been replaced?
- Claire:** This was the one we got when we moved into this office.
- Adam:** It doesn't look like there are many energy efficient features. If it takes an exceptionally long time to warm up after being in standby mode, then there's no use. We must make sure the features are also practical.
- Claire:** What is this all for?
- Adam:** I will be putting together a presentation. I would be grateful if you would make copies of this document for me as soon as possible, and in any event, not later than tomorrow morning.

Let's Practice!

Claire talks to Adam about office equipment.

Instructions: Select all the correct answers.

Which of the following sentences express necessary or unnecessary actions?

- ☐ 1. Personal printers in offices must be turned off when not in use.
- ☐ 2. You wouldn't mind answering a few questions, right?
- ☐ 3. Adam, you mustn't be touching that.
- ☐ 4. I've wondered if the printers are switched off at the end of the workday.
- ☐ 5. We needn't have it powered up all night.
- ☐ 6. We must make sure the features are also practical.

Let's Practice!

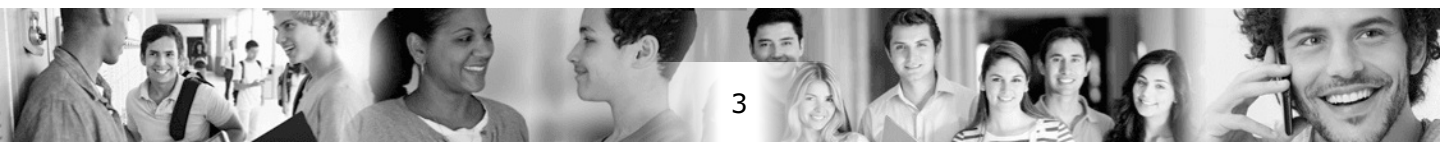

Adam inquires more about the functionality of the office equipment.

Instructions: Use the words from the Word Bank to correctly complete the sentences. Read the sentences aloud. Check your pronunciation with your instructor.

Word Bank

make / mind / would / would

- 1. If you wouldn't _____ answering some of my questions.
- 2. If you _____ let me know what you're looking for, I would be more than happy to help you.
- 3. I would appreciate it if you _____ tell me whether the standby is set properly on this machine.
- 4. I would be grateful if you would _____ copies of this document for me as soon as possible.

Extension Activity

Write a letter to a city official concerning an environmental problem in your area.

Instructions: Complete the following steps. Fill in the Self-Assessment.

- With a partner, discuss environmental problems in your area.
- Choose one problem.
- Discuss what can be done to solve this problem.
- Write a letter to a city official informing them of your view.
- Propose solutions to this problem. Use modals to express necessity.
- Use the correct structure of a letter, including a salutation and a final closing.
- Read your letter to your partner.

Self-Assessment

Yes No

I discuss environmental issues with a partner.

☐ ☐

I write a letter to a city official.

☐ ☐

I give my point of view.

☐ ☐

I propose solutions using modals for necessity.

☐ ☐

I read my letter to a partner.

☐ ☐

Target Words

- extended period** (noun): long or longer than the usual a length of time
e.g. Personal printers in offices must be turned off when not in use for extended periods as well.
- standby mode** (noun): a particular way in which a machine is in low-power timeout stage
e.g. Even in standby mode they are consuming energy and costing us money!
- automatically** (adverb): doing something independently, without human control
e.g. I'll be looking into the installation of software that automatically turns the machine off at a certain time.
- preset time** (noun): preparing a machine so it will operate or stop at a specified time
e.g. It needs to automatically turn on at a preset time in the morning.
- to power up** (verb): to turn on or prepare so that it is ready for use or action
e.g. We needn't have it powered up all night.
- energy efficient** (adjective): using little electricity
e.g. It doesn't look like there are many energy efficient features.
- exceptionally** (adverb): much greater than usual in quantity
e.g. If it takes an exceptionally long time to warm up then there's no use.

Learning Points

If-Clauses Used in Polite Requests

You can use **would** and **wouldn't** in if-clauses for polite requests. These are especially useful in a workplace setting.

Look at the following example:

*If you **would** be kind enough to lend me a hand, we could finish this very quickly.*

Structuring a request in this way is a very polite way to address your colleagues. It is not common to hear this in everyday conversation.

Here is another example:

*If you **wouldn't** mind checking this for me ...*

You do not need to finish the sentence - it is polite as it stands.

Examples:

- *If you would let me know what you're looking for, I would be more than happy to help you.*
- *If you wouldn't mind filling in this survey before you go, you can leave it at my desk.*
- *I would appreciate it if you would tell me whether the standby is set properly on this machine.*
- *I wanted to know if you would walk me through this.*
- *If you wouldn't mind answering some of my questions.*

Learning Points

Modals for Expressing Necessity

You use the modals **must**, **need** and their negatives **mustn't** and **needn't** to talk about what is necessary and not necessary.

You use **must** or **need** when something is necessary to be done.

Example:

*There is not enough time. You **must** hurry up / you **need** to hurry up.*

You use **mustn't** when something is prohibited.

Example:

*You **mustn't** play here. This is a church.*

You use **needn't** when there is no necessity to do something.

Example:

*You **needn't** close the doors after leaving. (You don't have to close the doors, but if you do it's OK.)*

Examples:

- *We need to switch printers off at the end of the workday if possible.*
- *We needn't have it powered up all night.*
- *Personal printers in offices must be turned off when not in use.*
- *You mustn't be touching that.*
